

SATYA ROHAN KOMPELLA

Full-Stack Developer

 chandujoshita47@gmail.com  +91 7989895665  Visakhapatnam, Andhra Pradesh, India  Portfolio

 LinkedIn  GitHub  Leetcode  India

PROFESSIONAL SUMMARY

Full-Stack Developer interested in Machine learning skilled in Python, React, and Cloud technologies with hands-on experience building AI-powered and data-driven applications. Developed a voice-controlled AI assistant, Deep-Fake Image Analyzer, deployed scalable full-stack projects, and completed a Data Analytics Tasks from TATA, Deloitte. Passionate about leveraging GenAI, data analytics, and cloud platforms to deliver innovative solutions. Solved 130+ DSA problems on Leetcode. Seeking to contribute technical expertise and problem-solving skills to dynamic software teams.

EXPERIENCE

Data Analytics, Solution Architecture Simulations

08/2025

TATA, DELOITTE, AWS

remote

- Conducted Exploratory Data Analysis (EDA) and built predictive models using Python and machine learning techniques.
- Used Tableau to show data Visually
- Understood about AWS architecture. Designed a simple and scalable hosting architecture with low cost Requirements

PROJECTS

VIRA an Virtually Integrated Assistant

Python-based Intelligent Assistant | Individual Project

- Engineered a Python-based voice-keyboard controlled AI assistant capable of performing Various bunch of tasks (weather, news, search, jokes, dictionary, music, Reasoning, automation etc.)
- Implemented advanced logical reasoning & multi-step problem solving by Gen Ai Api key with 4 layers of Analysis of questions
- Designed for a natural, human-like interaction style with voice input/output, making the assistant more engaging and user-friendly.

Deep-Fake Image Analyzer

- Full-Stack Deepfake Analyzer: Developed a real-time image authenticity system leveraging a fine-tuned **XceptionNet CNN** model (FaceForensics++) to detect synthetic image artifacts.
- High-Performance Architecture: Engineered a secure, high-speed backend using **FastAPI** (Python) for inference, integrated with a dynamic, responsive **React** front-end via custom hooks.
- Advanced UI/UX: Implemented a multi-section with Three.js animation and gave fully responsive layout.

Weather sites and More

- Developed and deployed a responsive weather application using HTML, CSS, JavaScript, and APIs.
- Deployed on GitHub and adopted by 50+ students from my college for daily use.
- Also made Task manager with Postgresql, SQLAlchemy, FastAPI.

SKILLS

Programming languages

Python, Java, C, Advanced Data Structures

Web development

React.js, FastApi, HTML, CSS, JavaScript, PostgreSQL

Data and Analytics

Data Analytics, Tableau, EDA

AI & Cloud

AWS, Gen AI, Prompt Engineering, Ai Tools

EDUCATION

B.TECH: COMPUTER SCIENCE & ENGINEERING

Raghu Engineering College (Autonomous)

- Coursework in Computer Science Engineering

Expected: 2028

Visakhapatnam, Andhra Pradesh, India

CERTIFICATIONS

Data Analytics Virtual Internship - Tata

Data Analytics - Deloitte

Solution Architecture - AWS
