

SATYA ROHAN KOMPELLA

Full-Stack Developer

 chandujoshita47@gmail.com  +91 7989895665  Visakhapatnam, Andhra Pradesh, India  Portfolio

 LinkedIn  GitHub  Leetcode  India

PROFESSIONAL SUMMARY

Full-Stack Developer with strong backend focus (Python, FastAPI, PostgreSQL) and hands-on experience building and deploying production-ready applications. Built a voice-based AI assistant, a full-stack deepfake image analyzer, and multiple API-driven web apps. Strong problem-solving background with 130+ LeetCode problems solved. Seeking backend or full-stack engineering roles to build scalable systems.

EXPERIENCE

Data Analytics, Solution Architecture Job Simulations

08/2025

TATA, DELOITTE, AWS

remote

- Conducted Exploratory Data Analysis (EDA) and Known how to built predictive models using Python and machine learning techniques.
- Used Tableau to show data Visually
- Understood about AWS architecture. Designed a simple and scalable hosting architecture with low cost Requirements

PROJECTS

VIRA an Virtually Integrated Assistant

Python-based Intelligent Assistant | Individual Project

- Engineered a Python-based voice-keyboard controlled AI assistant capable of performing Various bunch of tasks (weather, news, search, jokes, dictionary, music, Reasoning, automation etc.)
- Implemented advanced logical reasoning & multi-step problem solving by Gen Ai Api key with 4 layers of Analysis of questions
- Designed for a natural and human-like interaction style with voice input/output, making the assistant
- This project deployed in railway server and gained nearly 80+ users in 1 month.

Deep-Fake Image Analyzer

- Full-Stack Deepfake Analyzer: Developed a real-time image authenticity system used an pre developed fine-tuned **XceptionNet CNN** model (FaceForensics++) to detect synthetic image artifacts.
- High-Performance Architecture: Engineered a secure, high-speed backend using **FastAPI** (Python) for inference, integrated with a dynamic, responsive **React** front-end via custom hooks.
- Advanced UI/UX: Implemented a multi-section with Three.js animation from reactbits.dev and gave fully responsive layout.

Weather sites and More

- Developed and deployed a responsive weather application using HTML, CSS, JavaScript, and APIs.
- Deployed on GitHub and adopted by 50+ students from my college for daily use.
- Also made Task manager with Postgresql, SQLAlchemy, FastAPI.

SKILLS

Programming languages

Python, Java, C, ADSA

Web development

React.js, FastApi, HTML, CSS, JavaScript, PostgreSQL

Data and Analytics

Data Analytics, Tableau, EDA

AI & Cloud

AWS(basics), Gen AI, Prompt Engineering, Ai Tools

EDUCATION

B.TECH: COMPUTER SCIENCE & ENGINEERING

Raghu Engineering College (Autonomous)

- Coursework in Computer Science Engineering

Expected: 2028

Visakhapatnam, Andhra Pradesh, India

CERTIFICATIONS

Data Analytics Virtual Internship - Tata

Data Analytics - Deloitte

Solution Architecture - AWS
